- ✔ Pays for itself. Fence panels can be reused and re-rented
- ✔ Easy to stack, ship, store, inventory and reuse

"The Hilmerson Safety Rail System™ is adaptable, flexible, low-maintenance and also gives our job sites a professional appearance"

-BRYAN POPEN, SUPERINTENDENT, TURNER CONSTRUCTION

Patented Mobile Guardrail Kit & Patent Pending Slab/Stair Grabber

Patented Side Saddle Bracket™

Weighted Base & Standard Base

"We needed a product that installed rapidly to minimize any Metro Light Rail disruptions. The team allocated 4 hours for the fence installation. The ability to install the Hilmerson Barrier Fence System™ in 1/4 of the time saved us significant time, money and schedule. The Hilmerson Barrier Fence System™ is virtually maintenance free. We installed the system over 1.5 years ago and haven't touched it since. We added heavy duty privacy screening and banners that would typically add strain to the system, however, the panels are straight as an arrow."

-RICH BISTODEAU, SR. SUPERINTENDENT, MORTENSON
